Indiana University, Bloomington, IN   *May 2021*
Bachelor of Science in Informatics   Major GPA 3.75/4.0
Cognate: Business

WORK EXPERIENCE

Health360 Inc.   *September 2020 – Present*
Product and Web Developer Intern   McLean, VA
- Designed and created company's main website with WordPress, custom JavaScript, HTML/CSS
- Helped develop SOVRINHEALTH 360™, an application that collects and stores patient's health data from all doctors and hospitals on your mobile device

Kicksome Entertainment LLC   *May 2020 – August 2020*
Video Game Developer Intern   McLean, VA
- Organized storyboard ideas for game aspects, mechanics, and functionality
- Created game's first-person controller in Unity with C#
- Saved and imported data from a JSON file to save game assets on player click and spawn them when game is launched
- Planned and created scenes for game's reveal trailer

Cvent   *June 2019 – August 2019*
UI Developer Intern   McLean, VA
- Collaborated with sprint team to create UI components on booking and configuration websites
- Implemented various components using JavaScript libraries, including React and Redux
- Used Chrome Developer Tools to check quality of front-end code and fix any bugs

MarginEdge   *June 2018 – August 2018*
Technology Intern   Arlington, VA
- Created an internal website for executive management team using HTML/CSS and JavaScript to visualize a variety of operating metrics. Also implemented updates/changes to company's main website using WordPress
- Compiled queries for various databases using SQL on Redash and Tableau
- Conducted research in order to automate company's internal website by speaking to an Alexa or Google Home, integrating Lambda functions and API support

LEADERSHIP EXPERIENCE

Young at Art   *September 2012- August 2017*
Co-founder and Head of Social Media and Technology   Virginia, Maryland, DC
